50 California, 38, 37 1/2, 37 1/2.  
215 Imperial, 7 1/2, 7 1/2.

## DEATH OF MRS. GRANT.—

Coroner Holmes, of Virginia, on Tuesday evening, held an inquest on the body of Mrs. Minna Grant, who died in her sleep on Monday evening. Mrs. Grant was a native of Nova Scotia, aged 32 years; was a remarkably robust woman and was in the enjoyment of good health when her husband left their residence, on South Howard street, at 3 o'clock Monday afternoon. When he returned from work at 11:25 in the evening he found her dead. From the testimony of Dr. Heath and other medical experts, the jury returned a verdict that the deceased came to her death from an attack of apoplexy.

ACCIDENTS.—Camille Daganyon, working at the Douglas mill, had the top of his right thumb and the first joint of his right fore-finger torn off, in the battery, at that mill, on Monday last. A little son of Mr. McDermott, who works at the Occidental mill, fell from an embankment and, striking his head upon a stone, produced concussion of the brain. He laid unconscious for two days, during which time he had several severe convulsions, showing that the brain was severely injured.

BREAKING OF A DAM.—Yesterday at Humphrey's dam, the largest of the dams belonging to the twelve mill companies, at an early hour broke and swept away the smaller dams for the whole length of the flume. Humphrey's has been rather unfortunate of late in this respect, as this is the second break that has occurred within a few days. The first break had just been repaired with new timbers when it again gave way.

PICNIC.—It will be seen that Virginia Miners' Union have a picnic on the 8th proximo, which promises to be the grandest affair of the season. This will be about the last general picnic, and those of our citizens who can spend a day in recreation should not fail to be on hand on this occasion.

STOCKS.—Still they go down—everything on the board. Savage on Friday last was \$82; in yesterday morning's Board it closed at \$53 1/2, but touched \$52 1/2. So it is with others. A dangerous time for outsiders.

GEO. McFADDEN, the Assessor, looked in upon us yesterday. He looked into our affairs very minutely as to personal property, but as he does the same to all, we are satisfied.

THERE is a message at the telephone office for L. Wilson.

## ARREST FOR ATTEMPTED RAPE.

Yesterday a Mr. Davis hired a Chinaman to cut some wood, at Gold Hill, adjoining the residence of a Mr. Wade. Soon after he commenced his work, a little daughter of Mr. Wade, aged about 6 years, was playing around, when the Chinaman caught her by the hand, and undertook to take liberties with her. She cleared herself from his clutches and after a time returned, when he undertook to raise her clothing. Again she eluded him, and ran into the house, where the Chinaman soon followed. He then changed his assault to Mrs. Wade, who resented it by throwing a bucket of water upon him, and attempting to cut him with an ax that was close at hand. He left and went down town, and during the interval Mr. Wade went to his residence having been summoned by his wife. Hearing of the circumstance, he started in search of the Celestial, and while he was gone the Chinaman returned to his work, cutting wood. On Mr. Wade returning to his house, and finding the offender again on the grounds, he grabbed an ax and would have dispatched the villain had he not outran him. Soon after a complaint was sworn out and the culprit arrested and taken before Justice Wright. After a hearing of the case he was bound over in the sum of \$200, to appear at a subsequent time. In some countries that kind of offenders meet with summary punishment—and in most instances they deserve what they get.

SUTRO TUNNEL.—On Tuesday the main header was in a distance of 6,356 feet; progress for the week, 60 feet. As men are becoming more accustomed to the use of the Burleigh drills, a gratifying increase of progress is shown each week. For the past three days the progress has been at the rate of 12 feet per day, in a heading of 12x9 feet. At present only two drills are at work. Cars for the removal of dirt are being rapidly constructed, with a carrying capacity of two and a half tons each, and as soon as a sufficient number shall have been finished, two more drills will be put to work and the work will be driven ahead much more rapidly. Following is the report of the foreman of the temperature of the tunnel: "Thermometer at 7 A. M., in the header, 75 degrees; at shaft, No. 1, 73 degrees; at mouth of the Tunnel, 73 degrees."

ACCIDENT IN THE BELCHER.—Tuesday afternoon Pat Hurley, working on the 1300-foot level in the Belcher mine, met with a painful and severe though not dangerous accident. A cave occurred in one of the drifts, and Hurley was struck in the back by a large rock and an artery cut. He bled for upwards of an hour before medical assistance could be obtained, but is now doing well. James Shields, also an employee of the Belcher, received a cut of about two and a half inches in the back of the head from a falling rock. Wound not serious. Another employee whose name we did not learn, but who is stopping at the Brewsters, fell a distance of twenty-five feet on Monday, and was considerably bruised but no bones broken.

MINER'S UNION REUNION.—We are permitted to publish the following letter, received by the President of Silver City Miners' Union which explains itself:

Virginia M. U. Hall,  
July 27th, 1874.  
To the officers and members of Silver City Miners' Union.  
GENTLEMEN.—You are invited to participate in a reunion with the Virginia and Gold Hill Miners' Unions, to be held at Miners' Union Hall, Virginia City, Saturday evening, August 1st, 1874. Virginia Union will meet you at the Divide at 7 o'clock P. M.  
By order of Union,  
FRANK MURPHY, Secretary.

ANOTHER CASE.—We learn that another case of small-pox has made its appearance in Dayton, in the person of a little girl, a daughter of Sheriff Shaw. It is located in the same house where the recent case occurred, and shows that proper care was not taken to prevent its spread. It is to be hoped better care will be taken in the future to prevent the spread of the contagion.

A LARGE and enthusiastic meeting was held on Tuesday evening, at Virginia, to devise means to assist the Eureka sufferers. Committees were appointed in the several wards to solicit aid, and the President of the meeting, J. C. Currie, was authorized to forward contributions at once.

ACCEPTED.—Silver City Miners' Union have accepted the invitation of Virginia Miners' Union to meet them on Saturday evening, and will leave here in time to meet that Union at 7 o'clock on the Divide.

IN A WELL.—While a drove of beef cattle were being driven through Dayton, one fell in a well. It was killed by the city butcher before it could be extricated from its involuntary bath.

FOR Boots and Shoes, the Metropolitan Boot and Shoe store, No. 108 South C street, Virginia, offers superior inducements to any house in that city.

THANKS.—We are indebted to several gentlemen for files of Eastern papers.

## LYON COUNTY LETTER.

DAYTON, July 27, 1874.

EDITOR TIMES.—Having rashly made you a promise to give you a few items, from time to time, from the County Seat, I will do my best to redeem my pledge, though Dayton is, as you are probably aware, a very dull town these latter days. In former times a large quantity of firewood was cut in the adjacent hills, and gave employment to many men, in cutting, packing and hauling, and trade and work for merchants, blacksmiths and others, but all the wood within a moderate distance having been cut off, the business is now comparatively limited, and occupies hardly one man where it once did ten. Then, a few years since, the town contained within its limits some six or seven quartz mills, as for instance the two Dayton mills, Sutro's, Solomon & Davies', the Illinois and Golden Eagle—all of which have either burned or been removed to other camps, with no new ones to make good the loss. In addition to these drawbacks, the town has been singularly unlucky in respect to fires, but we still live, and in spite of its apparent dullness, Dayton is today a better town for business than many of more pretensions. Just now there are running in town, or immediate vicinity, the mill and works of the Lyon Mill and Mining Company, who are engaged largely in the reduction of tailing and the manufacture of blue-stone and sulphuric acids, besides doing a little in brick, the Woodworth or Ophir mill, of 24 stamps, at present running on Silver Hill ore and on slimes, and the Franklin, a 20-stamp mill, running constantly on Belcher ore. The Rock Point, one of the largest mills in the State, and a successful one, the water power, has been idle for months, and though it has been generally understood that it would be run this summer and coming fall, I am afraid such will not be the case. So much for the mills; for other sources of trade, we have the town of Sutro, which, though for a long time under a cloud, is, since the return of its proprietor—the irrepressible Adolph—beginning to turn up with a prospect of further improvements.

The business of cutting and bringing to market neat pine wood still continues, and helps a little, and the ranchmen from the Lower Carson river, who make this their headquarters, for disposing of their hay, and purchasing supplies, add materially to our trade, and in addition, the business of floating wood from the headwaters of the Carson to the mills near by, and for use at other points, is assuming large proportions this year. The drive to this place and vicinity will aggregate as much as 20,000 cords. Bryant & Saban and Johnson Bros. are the chief owners, and it is all being taken out on contract by Messrs. Rulison, Likens & Sims, who are pushing matters rapidly with a strong force of hands. So much for Dayton as it is; its future is by no means bright; yet, there are some developments in coal which would do much to restore our prosperity should they turn out well. Prospecting for coal is being carried on at the old Whittman mine, in the Corn range of mountains, about twelve miles from here, and also in El Dorado canon, about the same distance. Specimens brought in from the Whittman yesterday by Canavan, Rulison and others, of Gold Hill, look well, and I am assured that it will turn out an important point. The mine in El Dorado was worked in 1863 and '66, and produced a large quantity of coal, and the present proprietors are men of means, resident at Virginia. Hoisting works have been erected and work is being pushed forward rapidly. A good coal mine would prove a fortune to its proprietors, and a tremendous boon to the people. As to other positions little is said as yet; when matters begin to assume tangible shape, I will give you the result of my observations.

The political pot is hardly simmering as yet, but I presume in due time will bubble furiously. Little is said about candidates, but I am of the opinion that should Dr. Hazlett conclude to make a run for the Governorship, he will prove a strong candidate, both before the State Convention and before the people. I think him the strongest man in the Republican party, and in the event of a nomination, that he will make it very warm for Bradley or any other Democrat. It is to be hoped that Judge Seawell may be induced to run again for District Judge, and should he do so, I think he would receive the almost unanimous vote of the people. As to other positions little is said as yet; when matters begin to assume tangible shape, I will give you the result of my observations.

GOLDEN TRUTHS FROM THE WHITE HOUSE.—Serenity as a Summer's day are those well-known and popular clothing men, Messrs. Cohn & Isaacs, No. 16 South C street, Virginia. The world was well with them. People appreciate their goods, approve of their prices; and admire their style of doing business. At the White House clothing store are seen no broils nor contentions with infuriated customers returning moth-eaten and swindled goods. No exasperated proprietors, that "I didn't sell it to you," and "I didn't recommend it," winding up with "your eyes were your market, sir." At the White House old customers daily return, bringing their friends with them, who also bring good customers. Of course, to some nature the very calling to see a new establishment like the White House opens right under their noses, as it were, and achieve a marked and brilliant success, taking in the very start a high position in public esteem, and gaining a greater share of popular favor and patronage than many houses that have been hammering away for years. However, these old houses should make it their business to hear it. Messrs. Cohn & Isaacs do not allude to these things in any spirit of pride or triumph; they simply state facts for the public good. They do not doubt that it is gall and wormwood to their neighbors to have customers of many years standing leave them and give their patronage to the White House Clothing Store, but manifestation of temper is in very bad taste, and really has a bad effect. Being manifestly untrue it disgusts all hearers, and sends customers by scores to the White House. Such is life. So mote it be.

S. PACKSHER, of the International Cigar Store and Meerschaum Pipe Depot, Jobber and wholesale dealer in Havana and domestic cigars, keeps a large stock always on hand, to be retailed at wholesale prices. Havana Cigars, five for \$1; three for 50 cents; two for 25 cents. Discount allowed by the box. Meerschaum and Amber goods of every description, pocket-books, cigar cases, watch safes, hair brushes and tooth brushes of superior quality. Place open day and night. For any of the above named articles go to S. Packscher, International Cigar Store.

MUSEUM SALOON.—Curiosities for the curious, at C. J. Howard's Museum Saloon, under the Postoffice, North C street, Virginia City. This saloon has just been fitted up in splendid style, and is the most completely supplied with the choicest brands of wine, liquors and cigars. At this saloon can be seen one of the finest collections of birds and animals to be found on the coast, including a mammoth sea lion, which is really worth going to see. Drinks 12 1/2 cents; Museum, free. C. J. Howard, proprietor.

CASH vs. GOODS.  
W. B. RISON.  
Old Fellows Building, Main street, Gold Hill, dealer in Family Supplies.
